

DEPARTMENT OF THE AIR FORCE

6570TH AEROSPACE MEDICAL RESEARCH LABORATORIES (AFSC)
WRIGHT-PATTERSON AIR FORCE BASE, OHIO 45433REPLY TO
ATTN OF: MRHES(Dr. Dwight E. Erlick)

17 August 1967

SUBJECT:

25X1 TO:

[Redacted]
Deputy Director
Office of Research and Development

Dear Sir

Major Bruce Butcher of the Foreign Technology Division of the Air Force reported that he has recently called you to discuss our interest in some work performed by your organization. He indicated that it would be feasible for you to arrange to brief a group from the Air Force 6570th Aerospace Medical Research Laboratories here at Wright-Patterson Air Force Base on this work.

Our group, the Systems Research Branch, is concerned with functional symbiotic association between man and the computer. Our program includes studies to define a man's capacities to perform in such an association. We are particularly interested in existing problem-solution combinations where this concept has been employed to any significant degree. We understand that your organization has sponsored the development of ELINT data processing equipment which falls into this category. In particular we are interested in the SRL Model 230 data processor. I understand that it is located in [Redacted] facility.

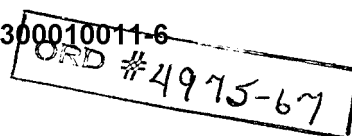

25X

Since most of the interested members of our organization are going to be in the Washington area attending a conference on 5 September 1967, it would be most convenient to make arrangements for 6 September 1967. I am enclosing clearance information on the group that would attend. I greatly appreciate your assistance in this matter. I believe that the experience will be of real value to us.

Very truly yours

DWIGHT E. ERLICK
Systems Research Branch
Human Engineering Division1 Atch
Clearance information

USAF review(s) completed.

CLEARANCE INFORMATION

1. Leonard L. Griffin, TOP SECRET dated 13 March 1963. Born Fort Raymond, Nebraska, 26 January 1924, U. S. Citizen.
